

## **CORPORATE PHILANTHROPY GUIDELINES**

### ***I. POLICIES AND PRIORITIES***

Contributions by Jarden Consumer Solutions (JCS) are made primarily in products donated at retail cost and are to be invested in projects that result in the most effective use of our resources. This enables Jarden Consumer Solutions to make significant contributions and maintain continuity of support in those areas of commitment.

JCS cannot realistically meet every request for support; therefore, we have developed contribution criteria and procedures designed to establish Company priorities for giving. JCS encourages all its employees to participate in community affairs, although an employee acceptance of an assignment in an organization's activities cannot imply promise of the Company's support. The Company only considers requests from organizations that primarily serve the communities where the Company has general operations or its employees reside.

### ***II. REQUEST PROCEDURES***

Requests for support must be submitted in writing and shall describe the organization or project seeking a product donation. It is preferred that all requests include the following items of information:

- Confirmation of 501(c)(3) status;
- Impact areas and communities addressed by donation;
- The specific request and deadline for action; and
- A history and description of the program and the requesting organization.

Please send all requests and accompanying correspondence to:

**Jarden Consumer Solutions**

Attn.: Community Relations and Communications  
2381 NW Executive Center Drive  
Boca Raton, FL 33431  
Ph.: 561/912-4368  
Fax: 561/912-4145  
E-mail: [JCSCCommunityRelations@jardencs.com](mailto:JCSCCommunityRelations@jardencs.com)

Donations are made throughout the year. Please allow at least one month for review and processing. If the request for support is approved, Community Relations will advise the requesting organization either by e-mail, phone or by letter. In most cases, if the request cannot be considered, a letter declining the request will be mailed.

***III. PRACTICES***

Requesting organizations are asked to conform to certain standards before Jarden Consumer Solutions will consider requests. These standards include the following, except for unusual or extenuating circumstances.

The Company will **not** generally make contributions to:

- Individuals or individuals' research projects;
- Organizations without a 501(c)(3) status, nor a status maintained for less than three (3) years;
- Political activities;
- Trips, travel or cultural exchange programs; and
- Endowment campaigns.

Our Company receives many requests each year for support from worthwhile organizations, but it is not possible for us to contribute to all of them. Denied requests for support do not necessarily reflect judgment by the Company of a cause or organization.
